Ready-to-use Intranet Portal

In today's business, technological complexity is the norm. Employees need to access valuable information via multiple systems and applications that are often not integrated. A collaborative and integrated information environment is needed across the organization, allowing your employees to become more productive and your business easier to manage.

BAWWABAT® is a ready-to-use transformational intranet portal solution specifically designed for organizations striving to ameliorate the informational flow and employees' productivity. BAWWABAT® empowers the knowledge worker on the individual level, the divisional level and the whole enterprise one. BAWWABAT® offers a well-thought of structure by incorporating pre-configured workspaces designed to enrich user experience and facilitate content management. Consequently, BAWWABAT® enables organizations to get a portal up and running with minimal efforts and confers employees the advantage of having information at their fingertips.

BAWWABAT® boosts and synergizes the user experience and intelligently offers businesses the foundation for more visibility, easy information access and knowledge worker empowering. Additionally, BAWWABAT® leverages the integration features of Microsoft Sharepoint 2007.

BAWWABAT® makes the promise of a collaborative solution a reality.
